Introduction

Fleetroot is an IoT platform for connected operations improving efficiency, safety, and quality. Fleetroot Partner Dashboard provides skimmed glance of the portal features and other shortcut settings for the user to operate it with ease.

I.Dashboard

Dashboard

1.Account

The followings settings are available in your profile:

The profile settings panel includes a header with a settings icon and a user icon. The main content area shows the user's name 'iv', a profile picture placeholder, and the text 'WEXOZ SECURITY SERVIC...'. Below this, there are three settings: 'Change Password' (iii), 'English' (ii), and 'Log Out' (i).

i).Log Out :. You can log out from your account by clicking 'log Out'.

ii). The user can choose the language for the operations.

English

Español

عربي

iii).Here you can change your password.

2. Notification

Here you can see all notifications.

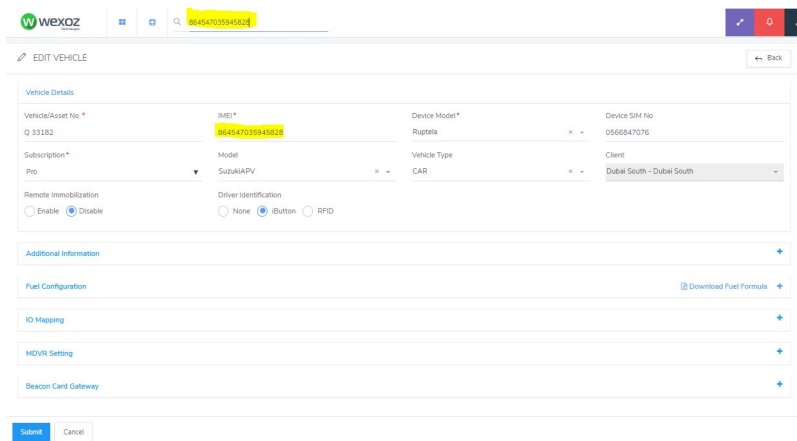

3. Zoom

This enables the zoom in and out of the screen.

4.Search

This helps to identify the IMEI and its corresponding vehicle.

5.Device Test :

With this feature, you can carry out a first level check to know whether the device is updating or not. This can be achieved by feeding in the IMEI number. This option also enables the deletion of IMEI number.

V.Vehicle

This feature used to perform operations on vehicles.

Dashboard

Here you can see the vehicles summary such as the total number of vehicles that are currently running , idling , stopped and disconnected.

The dashboard displays a summary of vehicle status at the top: Total 19, Running 0, Idling 0, Stopped 19, and Disconnected 0. Below this is a table with 13 columns: VEHICLE/ASSET NO, DRIVER, MODEL, SUBSCRIPTION, IMEI, DEVICE, GROUP, SIM NO, YEAR, ODOMETER, FUEL SENSOR TYPE, FUEL TANK CAPACITY, and FUEL VARIATION IN L. The table lists 10 vehicles, all of which are Suzuki APV models with 'Pro' subscriptions. The first vehicle, Q 33182, is selected. The dashboard also includes a search bar, a 'DISPLAY VEHICLE' button, and a 'Remote Login' button.

d).Print Certificate

The GPS certificate can be produced by filling in the mandatory fields as shown:

Certificate Preview ×

Service Activation *	12/09/2018	
Service Expiry *	12/09/2019	
Vehicle No	Q 33182	
Engine No	J24B1327349	
Chassis No	JS3TA0D10J4100043	

The below image displays the generated sample GPS certificate.

FLEETROOT

Certificate Of Installation

This is to certify that the following vehicle has been installed with a **Ruptela** GPS vehicle tracking hardware under **Fleetroot** IoT platform

Vehicle # Q 33182

IMEI No : 864547035945828
Engine No : J24B1327349
Chassis No : JS3TA0D10J4100043
Service Activation : 09 Dec 2018
Service Expiry : 09 Dec 2019

Service Provider
Wexoz Security and Surveillance

e) Delete

The deletion process can be carried out as shown:

VI.User

Here you can see all the user data and can export all user information by clicking on the 'Export to XLS' button.

The screenshot shows the Wexoz dashboard for user management. At the top, there's a search bar for IMEI numbers and a '+ New' button. Below, a table lists four users. A tooltip for the 'Export to xls' button is visible, indicating 'Showing 1 to 4 of 4 entries'.

	NAME	EMAIL	PHONE NUMBER	STATUS	ROLE
